## **DETAILED ACTION**

### ***Request for Continued Examination***

1. The request filed on June 14, 2006 for a Request for Continued Examination (RCE) under 37 CFR 1.53(d) based on parent Application No. 10/676,173 is acceptable and a RCE has been established. An action on the RCE follows.
2. In view of amendment filed June 14, 2006, claim 7 has been cancelled. Claims 5, 6, 10-15 are drawn to non-elected subject matter. Claims 1, 3, 4, 8, 9 are examined with merit.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1713

4. Claims 1, 3, 4, 8, 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Müller (US Pat. 6,303,687) for the reasons adequately set forth from the office action of March 13, 2006.

Applicant's arguments filed June 14, 2006 have been fully considered but they are not persuasive. Applicants argue that the blending copolymers disclosed in Müller are different from the copolymer specified in the invention being claimed. However, the examiner cannot find any evidence in Müller that restricts the teachings of Müller to blending alone. Applicants must recognize that Müller (col. 14, line 10 to col. 15, line 13) clearly discloses the hydrophobic monomers such as alkyl acrylate, acrylonitrile, etc (col. 14, line 21-51) and hydrophilic monomers such as N-vinylpyrrolidone (col. 14, line 63) as claimed. Therefore, the 102 rejection set forth is proper.
